Language is hardly strong enough to express my admiration of the merits of Chamberlain's Cough Remedy. It is the best remedy for croup and whooping cough I have ever used. During the past eighteen years I have tried nearly all the prominent cough medicines on the market but say, and with pleasure too, that Chamberlain's Cough Remedy is the best of all. THOMAS RHODES, Bakersfield, California. For sale by G. C. Thaxter.

While Will Wright is still with Peterson, at the gallery over Thaxter's, special attention will be paid to enlarging of portraits. Mr. Peterson has done some very fine work in this line, which can be seen at the gallery. The public is invited to call and inspect same. j2

Mr. W. H. Baldridge, druggist Escondido, California, says: Chamberlain's Cough Remedy is the best selling medicine I handle. In fact I sell more of it than all other cough medicines combined. Everyone who has used it speaks in glowing terms of its efficiency. For sale by G. C. Thaxter.

How Can Parents allow their children to cough and strain and cough and calmly say: "Oh! it's only a little cold," and keep giving them cheap and dangerous medicines, until they are down with lung fever or consumption, when they can be so easily relieved by BEGG'S' CHERRY COUGH SYRUP? It has no superior and few equals. W. H. Chedid, Druggist.

Trinity county, Cal., has recently been visited by the biggest landslide known in the history of the Coast, and a new lake eight miles long has been formed by the sudden damming of the river.

The APPEAL is in receipt of the proceedings of the St. Louis Convention, containing speeches by Stewart, Fitch and Farrell of Nevada. Our Nevada delegates made the silver eagle scream when they got the floor.

A Chinaman was hung in San Francisco on Friday whom four leading physicians had examined and pronounced sane. When the autopsy was held tumors were found on his brain. The poor devil must have been too poor to see the doctors, hence his pendulous position last Friday.

The public learns with great regret that Bill Nye has been obliged to sever his lecture partnership with James Whitcomb Riley on account of the latter's intemperate habits. Nye and Whitcomb were to have lectured here in March. If Nye comes he will be given a big house.

## THE WEEK'S COSSIP.

"So disasters come not singly; but as if they watched and waited, scanning one another's motions. When the first descends the others follow, follow' gathering flock-wise." And so it is with death.

Five times within the past few weeks the angel with the dark wings has been among us, and where-ever his icy lips have lingered the weary eyes have closed, and with noiseless step some loved one has passed through the valley of shadows, leaving behind them lonely homes, and aching hearts. When death comes as it did to Mr. White, all those who knew and loved him, feel that after so many years of patient suffering he had dearly earned the peace and rest that death alone could bring, and every heart goes out in kindness and sympathy to the loving patient wife, and bereaved children.

When I said five deaths I included Mrs. Lou Kline Desmond, or though she did not die in Carson she was known and loved by many of Carson's people. Happy-faced, kind-hearted Lou Kline, who can think of her as dead? Why only two or three summers ago Lou spent six weeks at Lake Tahoe with a party of friends, and what a jolly time she had, always the first in any pleasure party, coming home at night bright and happy as when she started out in the morning. One evening when the gay party were all worn out except Lou, I said to her: "Lou do you never grow tired of having a good time?" I shall never forget how bright and happy her face looked as she answered, "Why no of course not. You see I may die sooner than I expect, and I should not like to think when death comes that I had ever missed any pleasure that I could have had just as well as not." And I doubt not but that Lou had crowded as much of sunshine and happiness into her short life as many a woman has known, who with dim eyes, gray hair and a faltering step, has tottered over life's brink, to wander in the shadowy valley beyond.

Carson's society ladies have given a few dinners, luncheons and evenings at home, but our aristocratic visitor, Monsieur La Grippe has required so much attention that but little time has been had for anything else.

The members of the O. N. O. club are to be congratulated upon the brilliant success of their party given on last Friday evening. Five figures of the German led by Miss Ella Bender and Mr. Watson, were danced in the early part of the evening; First Basket Quadrille figure with favors for ladies of peacock feathers which were placed in the hair; Second, Scarf figure; Third, Tennis figure; Fourth, Lantern figure and Fifth, Prisoner's figure in which the gentlemen had their hands tied, the ladies untied their hands and presented each with a cigar. The evening's entertainment was one of the brightest merriest and most enjoyable ever known in Carson. Many of Reno's elite came over to attend the German. Among the names remembered are those of Mr. and Mrs. Bell, Mr. and Mrs. Powning, Mr. and Mrs. Foley, Mr. and Mrs. Baker, Prof. Duval, Miss Duval, Miss Russell, Miss Wasson, Mrs. Moore and Mr. Rule.

DEAD CATTLE. — Frank Button says the loss of cattle up the Little Humboldt is almost incredible. Harry Pratt lost about 200 head of those which he was feeding. They were poor and perished during the cold spell in January. In his (Button's) field there is a cave in into which twenty-six head of cattle crowded and died. The horses actually wore the hair off their legs and noses pawing and rooting in the snow for something to eat. — Silver State.

For the accommodation of the traveling public the V. & T. should run their morning local to Reno early enough to catch the East and West bound passenger trains. By so doing, traveling men could stay in Virginia City or Carson over night instead of leaving at night and staying in Reno until morning.

## A FOUL MURDER.

An El Dorado County Young Lady's Sad Death.

Chas. H. Bowden shot and killed Mrs. J. A. Price at Eureka, Cal., on the 7th inst. Mrs. Price was from El Dorado county and was formerly Miss Lillie Wilcox. She married Price in August of last year. On the day of the murder Bowden borrowed a revolver and called at the Price residence. Mrs. Price answered the door bell, when Bowden commenced shooting. The first three shots took no effect. He then seized her and held the revolver close to her left breast, and put a bullet through her heart, and then attempted to kill himself, and lodged a bullet into his own neck. Bowden was lodged in the county jail and the attendant physician thinks he will recover.

Commenting on the above murder, the Placerville Democrat says: Bowden first became acquainted with Miss Wilcox while employed in a mine in which her father worked at Garden Valley. Later he worked at Grizzly Flat, where Miss Wilcox was then teaching music. Here the couple became engaged. A few days before the date set for the wedding, the engagement was broken off for some reason not known to outsiders. Bowden then did all to blacken the character of the young lady, talking freely, and even going as far as writing defamatory letters to each of the papers here. These were refused publication, as the young lady was held in highest esteem, and above reproach. It seems, from the sad sequel, that Bowden was not satisfied with his nefarious efforts to ruin the young lady's reputation, and with a discharged and jealous lover's infatuation finally resolved on the deed committed so wantonly last Friday.

The young lady's friends are shocked at her sad and sudden death and universally condemn Bowden as a red-handed murderer without cause or justification for his deed. If ever a man was hung, he should be.

## A VALUABLE ICE PLANT.

Soon to be Constructed Near San Francisco.

From a gentleman who recently paid a visit to the Bay, a Gazette reporter learned that it was reported and generally believed at San Francisco that an Eastern firm has already secured the land and water right near that city, where they propose putting up a plant to cost \$750,000 for the manufacture of ice. The water to be used is to be boiled and settled and sediment removed, leaving it absolutely pure. This firm is said to guarantee to furnish ice in blocks 12x12 inches at \$2.75 per ton, and in addition to this low rate, they have already let a contract for the construction of 10,000 refrigerators, or ice chests, which are to be furnished gratis to all consumers. These refrigerators are to be neatly constructed with a "cooler," or receptacle for water when the ice melts, which, on account of its purity and cleanliness, will be used for drinking. Should this scheme be consummated, it cannot fail to have a very depressing effect upon the ice business of the Truckee river.
